PROFESSIONAL EXPERIENCE

AI Video & Visual Content Creation | Independent / Project-Based Experience

- Create AI-assisted videos, images, GIFs, characters, scenes, and visual assets using multiple AI generation and editing platforms.
- Work from scripts, scene descriptions, visual references, and creative direction; assemble generated assets into finished content.
- Adapt to new AI tools, prompting methods, output requirements, and client-specific creative workflows.

Personal Content Creation | Video Editing • AI Content • Social Media

- Create and edit personal videos, short-form social content, and vlog projects using cuts, pacing, captions, music, transitions, and story flow.
- Develop visual assets and experiment with AI-generated images and video for digital content.

Freelance — PC Technician / Technical Assistant | 2024–Present | Remote

- Provide remote troubleshooting and technical support for software and hardware issues.
- Perform software installation, system diagnostics, configuration, optimization, and basic hardware troubleshooting.
- Assist users with technical concerns through remote support and clear step-by-step guidance.

Woflow — Image Annotation Specialist | 2023–2024

- Handle digital image annotation and localization tasks according to detailed project guidelines.
- Maintain accuracy and consistency while meeting productivity and quality standards.

TELUS International Digital — Personalized Internet Ads Assessor | 2021–2023

- Evaluate and rate online advertisements, search results, and listings for relevance and quality.
- Follow detailed guidelines to support relevance and improve user experience.

Upwork (Freelance) — B2B Lead Generation & Data Entry Specialist | 2021–2022

- Conduct B2B research to identify qualified leads and build organized prospect lists.
- Perform data entry, CRM updates, list building, and spreadsheet management with attention to accuracy.

GHUB Computer Shop — Computer Shop Attendant | 2019–2020

- Provide technical support, system troubleshooting, software installation, and customer assistance.
- Assist with basic hardware support and computer-related customer needs.

YZA Coloured Digital Printing Company — Graphic Designer / Digital Printing Operator | 2013–2016

- Create layouts and graphics using Adobe Photoshop, Illustrator, InDesign, and Acrobat Pro.
- Operate digital and wide-format printers, Xerox machines, and binding equipment.

Quezon City Hall — Internship — Data Encoder / Administrative Support | 2013

- Input and organize data while following administrative procedures.
- Assist with payroll and writing tasks, document delivery, and file organization.

EDUCATION

STI College – Fairview Campus — Diploma in Information Technology, 2011–2013 | Quezon City
